Editors' Vision

As pickles, we are constantly being pulled in a million different directions. Arts classes, late rehearsals, homework, and academic classes never fail to overload us with work. Still, we keep going, doing what we love while surrounded by other people pursuing their passions. Like in the game, pickle ball, we have to multi-task to succeed. But we keep doing it! From early mornings to late nights (and the not-so-occasional all-nighter), we keep working to do what we like best. We keep this positive attitude in mind while working on the yearbook. It can seem like an absolutely unmanageable amount of work in a far-too-short time period, but every year we manage to make it the best yearbook yet. We have been working on the yearbook since freshman year, and are the pioneers of The Dill. It is easy to push these tasks to the side, but we persevere in true pickle fashion to publish the yearbook, year in and year out. We hope that you enjoy this year's yearbook, and always remember -- we may be in a pickle, but it's not a big dill!

ARTIST'S VISION

When I heard the theme "in a pickle", the first idea that came to my mind was to draw a pickle jar. The pickles in the jar represent the students and as the nutrition label suggests, each art is represented; 25% dance, 25% music, 25% drama, and 25% visual art. When finding reference for the jar, I used Mt. Olive Pickles, a brand that was founded in North Carolina. I took cues from their branding such as the chartreuse lid and the shape of their label. I love creating texture in my work so it was a fun challenge to portray the shine of the jar as well as the uneven texture of the pickles. This cover represents the many types of artists at our school all gathered together under a common goal: to share our talents with others.

IN THE JAR

For many residential and commuter high schoolers, UNCSA has become a place where we spend countless hours devoted to our studies and our art. But what do we do with our time off? Living on a small campus doesn't give us much to do, so we have to use our creativity to our advantage. These pickles find countless ways to have fun on campus, from soccer on Gray 2 to Ping Pong tournaments in the connector . Of course, no one would ever think of getting into shenanigans like climbing on the roof! We've certainly had some adventures this year, and there are many more to come!

Pickles In Their Natural Habitats

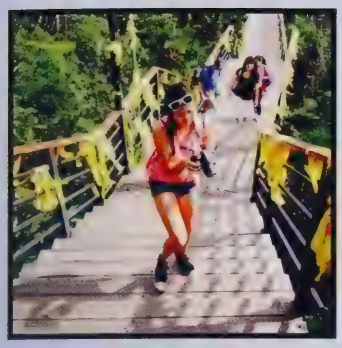
Yamini Jain

Senior drama student Yamini Jain was born and raised in Dubai, United Arab Emirates. Yamini was thankful to hear about the School of Drama here at UNCSA from a summer drama program. Growing up, she was always very involved in theater and decided she wanted to pursue theater professionally after her first trip to the States. "I luckily got to attend a small musical theater summer program that really opened my eyes. It was so great to finally meet like minded people who unapologetically went after what they wanted. It gave me the strength and confidence to finally pursue my art. Growing up in India and Dubai, I never really saw people my age or people older than me pursue the arts as a career, which really frightened me, as there is a lot of pressure to be a successful, well-rounded student in schools in Dubai. For a long time, I tried to run away from it because I was too embarrassed to admit what I wanted to friends and family for fear that they would ridicule me or tell me to be practical and pursue something 'safer' and 'acceptable'. I have often been given the side eye when people ask me about what I want to be. However, after a long time, I finally broke out from my shell and fought to find opportunities for myself to grow as an actor, which has luckily brought me here!" For most, making the commitment to move so far away from home at such a young age is an extremely tough decision. Yamini has known what being away from home is like since she was about 5 years old, when she briefly attended a boarding school. When she found out she was accepted into the School of Drama, Yamini says she "did not have to think twice about coming here." Because of this, making the commitment and transition to UNCSA was easy for her. Although she had a rather smooth transition, she mentions how she misses her family and aspects of home she can't find anywhere else. "I would be lying if I said I didn't miss home. I miss my mom's food and the people that I have grown up with. Being from a big city, it is a bit strange to be living in a small town. I am used to the big city life and find it quite strange that most things end by 9 pm here. I miss the food the most. Being from a multicultural city, I miss having the best of foods from different cultures around the world. I also miss being able to relate to people who have similar experiences as me."

"I am the only international student in the drama ensemble and sometimes it gets lonely as the majority of people don't have the same experiences as me, but I have accepted my uniqueness and I am slowly getting used to Winston-Salem," Yamini said. More than anything, Yamini enjoys being surrounded by artists just like her, who are extremely supportive of the arts as well as their craft. She mentioned that back at home, being the only person in her grade who wanted to pursue drama became very isolating.

Dubai is an amazing city, with many artificial/man-made islands and the world's tallest building, the Burj Khalifa. About 85% of Dubai's population is made up of foreign citizens. "I am just grateful that I am in a space that allows me to cultivate my interests and that supports me as a person and artist," Yamini says.

Lucy Zhu



Originally from Shanghai, China, Lucy Zhu is a new senior ballet student here at UNCSA. Lucy started ballet at about three years old, and has been dancing ever since. She heard about the school through a family friend and San Francisco Ballet principal dancer, Yuan Yuan Tan. Tan was the school's guest artist in the production of "The Nutcracker" last year, and told Lucy she should apply for the School of Dance here at UNCSA. For most, moving over 7,000 miles away from home is a huge commitment to make. However, it's "all or nothing" according to Lucy, and that "you will never know if you never take chances." Although she's quickly becoming more comfortable and acquainted, she does miss quite a bit from home. She misses the big city, the endless amount of things to do, and all of her friends, of course. Coming from a different country indicates cultural differences. Contrary to Shanghai, Lucy has noticed that the people here are more tight knit and happy to help, whereas at home, she is used to being independent and self-sufficient. A fun fact Lucy shared about Shanghai is that it takes three hours just to get to one side of the city to another... without traffic!

Mina Ghirardelli

Freshman violinist Mina Ghirardelli was born in Japan but moved to Turkey shortly after and spent most of her childhood there. She attended a Japanese elementary school in Turkey and then switched to a French middle school. One summer, she participated in a master class with violinist Ida Bieler in Italy where Professor Bieler encouraged her to audition for UNCSA's high school program. She was accepted shortly afterwards.

Kira Wilkerson

Kira Wilkerson is originally from Toronto, Canada. Leaving home at such a young age was not an easy transition, although quickly making friends and adjusting to her new lifestyle here at UNCSA made the process much smoother. Kira started dancing when she was just three years old. Since then, she has competed in many ballet competitions all around the world, including the Youth America Grand Prix, as well as Youth International Ballet Competition. Through the exposure she gained from these competitions, Kira was able to learn about UNCSA, which sparked her interest in the School of Dance. Although the culture and communal life is quite similar to what she is used to, what Kira misses most about home is being with her family and her cats. She also mentioned that Toronto is the home of many different arts performances and festivals, including the Toronto International Film Festival.

Squad goals on Decades Day.

Spirit Week is always a blast at UNCSA! Students get the chance to show as much school spirit as possible. Pajama Day was as popular as always, with students walking through the hallways in fuzzy outfits. Decades Day had quite the turnout also, with people dressing up to model decades across the century. The last day of Spirit Week went out with a bang for Pickle Pride day. Parents arrived for parent teacher meetings, and their students were repping UNCSA hard! There was no Twin Day this year, but students still had lots of fun! Many students used Dress Like a Teacher Day to twin with their favorite teachers. Overall, Spirit Week was a success across the high school!

Rico, the Wandering Spirit:

It all started in Sanford 116 and 118 of the fall semester of 2017. Four freshman were seeing a dark figure linger in the corners of their rooms each night. They named him Rico, and were always scared to see him. He gave them a heavy and depressed feeling when they went to sleep, so they knew when he was around. According to a local, Rico is a ghost from the 18th century, who was a father to a little girl. His little girl was lost, so he visits Sanford to watch over the female students living there. Legend has it Rico still lurks in the hallways in the darkest of night.

Favorite Spots on Campus

At UNCSA, many of us have found our home and a sense of belonging, and although we love what we do here, sometimes our schedules and workload can be overwhelming. Many of us find ourselves going routinely to one place of campus to relax or work peacefully. The comfort of a familiar place can be beneficial to our success here.

Beth Henson and Delaney Quin like the Harp practice room, it's a great place to go focus on your art and be productive.

Who says UNCSA doesn't have sports? Carson Kilpatrick, Jimmy Jackson-Cabaniss (above), Nick Meyers, AJ Camby, and others congregate daily in the connector to play ping-pong."We fight to the death everyday," says an anonymous source.

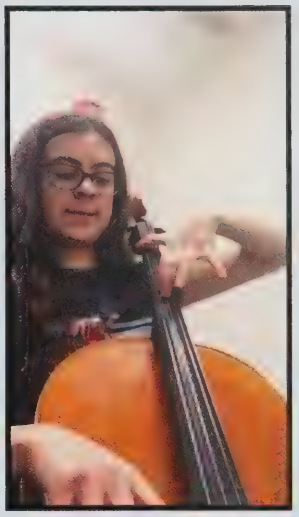
Emily Huang can always be found in Mr. Bo's room. She likes the positive environment in the room, and always sits in the desk right next to Bo.

Nigel Moore eats what he calls "the best food on campus" at the pickle.

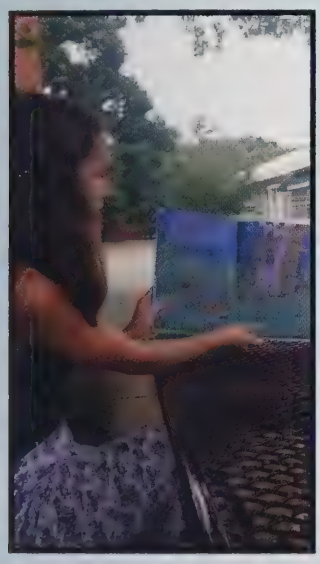
Irma Nelson enjoys the peaceful setting of the picnic tables outside of Hanes Commos. In the evenings, she listens to music and people watches while she waits for her friends to get out of dance class.

Mr. George enjoys the intimate setting of the Demille Theatre, where the audience gets to be up close to the dancers.

You can find Nick reading next to the big window on the second floor of Gray where it's "not too warm," he says.



Where can you find Jojo and Mina? Well, where every musician should be, of course. Gettin' some good practice in in the maze!



Storytime with Alexis Ward out on the benches in Daniels Plaza is always a good time! Book of the day: The Lorax.

Mr. Pfefferkorn gets excited about the Gilded Age!

High schoolers at UNCSA lead very busy lives, playing concertos, molding sculptures, reciting scripts, and dancing on stage. The one thing that ties us all together and brings us down to earth is our academics. When we take APUSH, english, and chemistry, we are just regular high school students. The long checkered hallway that we call the academic hall is always full of students learning, studying, and stressing over their upcoming tests. We can be seen reading on benches in the alcoves of the hallway, laughing with our favorite teachers, or, on bad days, taking naps anywhere we can. Some days are great, filled with laughter and excitement, while the next may be disappointing or stressful, worrying about exams and art classes. Yet, no matter if it was a good or a bad day, it is all just a part of the high school experience. This long checkered hallway is just a stepping stone to the next part of our lives.

BALLET

Each year, the ballet students tackle tons of classes, performances, and rehearsals. They kill their shoes, fix their turn out, and work on their artistry. Countless hours and endless amounts of work go into their craft. Through smelly feet and aching bodies, they improved as artists. They killed it in Nutcracker, Winter Dance, Spring Dance and the Demille showings. Bravo on a year of hard work and strong performances!

CONTEMPORARY

From first year solos to partitas, contemporary students are always working hard. Countless hours spent in the studio and stressing over every little step are shown in the amazing studies presented at the comp showings. On top of that, students attend rehearsals for Fall, Winter, and Spring dance, Emerging, Spree, and anything else in between. However, it's times like these where they find their closest friends: bonds formed over a mutual love of movement and creation (and being tired all the time). These friendships are ones that last forever and tend to mean the most.

The School of Music is the forgotten gem of UNCSA. Sure, we don't have the glamour of the School of Dance or the prestige of the School of Drama, but we musicians quietly work countless hours to provide our beloved campus with the soundtrack to the school year. From the beautiful chaos that was Leonard Bernstein's MASS to the always-enthralling Jazz Ensemble delivering exciting performances that are all circled on our calendars and the overwhelming amount of guest artists who have graced us with their presence (Wu Han immediately comes to mind), this year has been jam-packed with unforgettable musical experiences that will last a lifetime. That being said, the pristine performances fail to showcase the endless practicing, rehearsing, score-studying, bad lessons, rejection letters, laughing, crying, emotional suffering, "tendonitis", circuses, unsent emails, disorganization, stress, and excitement that comes with being a musician here at UNCSA. It is said that music is man's greatest unspoken language, and the struggle for fluency is what ultimately has brought us together.

MUSIC

GETTING LITTLE

"I am 8 years old here, playing on my first cornet. I was in the second grade and learning my first song, jingle bells."

Jimmy Jackson-Cabaniss

"When I was eleven I went jumping around on my trampoline listening to music on my iPod shuffle. I would improv to "This Girl Is On Fire." One day I was going extra hard and noticed that my mom was watching my improv so I went even harder. Shortly after that, I walked inside like I knew what was up. She told me that I should start taking dance classes, I agreed and then quickly joined dance and have been enjoying it ever since."

Grant Kennedy

We know that students at UNCSA are dedicated. We know that we are constantly working hard. We know that we are all here for our own reasons, whatever they may be. But what do we really know about each other? How did all these artists get their start? Why are we here? What were our beginnings? Why do we keep coming back?

"Music has always been a big part of my life. I started piano when I was five years old and five years later I began bass. My love for music evolved into a passion for singing. Growing up in Winston-Salem I went to see as many performances put on by UNCSA as I could and I am now fortunate enough to be able to participate in many of these productions."

Elspeth Burdette

"In this picture I was wearing my favorite tutu and flower crown while dancing around in my living room. My grandma was the one who introduced me to dance by showing me the ballet "Don Quixote" when I was two years old. I fell in love with dance. She is the reason I am here today!"

Sophia Dendy

"I began acting when I wanted to make the stories I was creating with my dolls come to life. I read books and have an urge to go on an adventure. Acting is the closest thing to giving me that thrill and freedom to explore different places and be different people."

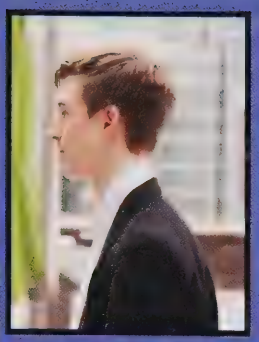
The Four-Year Club

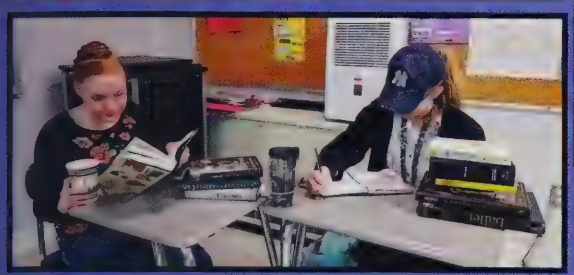
Every year, we celebrate the students who have attended UNCSA from freshman year until senior year. This four-year club is full of devoted students and artists who have grown their own community throughout the years. This year, twenty-two students of the graduating class have been at UNCSA for all four years! Sixteen dancers and six musicians have stuck it out through all of the late night rehearsals and never ending homework. This class saw the opening of the new library, the new one card, the start of meal exchanges, the transition from community meetings to high school assemblies, and the arrival of several new deans, including our own academic dean, Dean Ferrell. Congratulations to this year's four-year club!

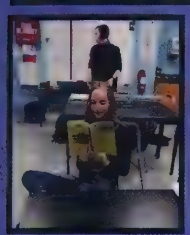
Members of the Four-Year Club, in alphabetical order: Hayley Allen, Elspeth Burdette, Sloan Caldwell, Ruthie Dalby, Tyson Davis, Liz Devanney, Alexee Estes, Greer Gage, Sienna Hamilton-Thibert, Katherine Hubbard, Ashton Jones, Carson Kilpatrick, Erik Kim, Sanaá Lucas, Taylor McCain, Aida Mitchell, Valentina Sanchez, Samantha Scheel, Coby Schoolman, Autumn Thompson, Jolene Valoris, and Emily Waldo.

Fresh off the vine

Even though you're growing up, you should never stop having fun.
– Nina Dobrev







To many, especially the freshmen, the transition to a new life at UNCSA was different from anything they had ever experienced. New friendships had to be developed, those on campus were surrounded by a new way of living, the dancers were no longer in their protected environment, and the musicians were presented with more challenging music. Of course, some positive outcomes came with time.

For the musicians, making friends was tough because many had never met each other before, but for the dancers, most of them had known one another for years before high school while in prep dance. Luckily, all but two musicians came together every morning for Mr. Bo's English class and built up somewhat of a camaraderie. Once this trust had developed, the musicians blossomed out of their faction and gained the confidence to interact with the dancers. Because of their long-lasting friendships, the dancers were also slow to acquaint with the musicians.

For four of our fellow freshmen, the experience of moving to UNCSA was very different. Thomas, Noah, Alexis, and Mariclaire had to go through the process of moving away from home and into the dorms along with, what were at the time, many mysterious individuals. Additionally, they had to learn to live without the comfort of their parents' everlasting love; however, as time went on, they were able to adjust to their new environment. "I'd say that moving away from my home and family was not as difficult or emotional as I initially thought it would be," said Thomas Austria. With their new-found independence, these four freshmen learned to do laundry, make a bed, and even use a vacuum (hopefully).

Throughout the year, though, we have all had our struggles. For the dancers, their 8:30 dance class meant waking up before their primal waking time. For the musicians, starting off the year with colossal productions like Bernstein's Mass and Beethoven's 7th meant extremely late nights and non-stop rehearsals during the week. As far as their regular high school life went, things like focus questions and an infinite load of projects only added to the stress of everyone. But even with such a load, most got through it and were happy about their experiences.

SOPHOMORES

We are no longer the youngest. We have become a more fearless class, no longer caring what others think. We were sad losing half the freshman family. But, we stayed connected with them through Snapchat and Instagram. However, losing part of our family allowed the sophomore class to encounter new personalities, expanding our friendships. Our family as a whole struggled with procrastinating on everything from current events to essays. During these times of procrastination we helped each other understand our assignments. We will never forget the plant Sophocles. We end this year strong, having had many new experiences. We are halfway done with high school!

Juniors

When they said that junior year would be the hardest year yet, they were not joking. These were some of the hardest eight months that we have ever encountered. It was eight months of practicing, self deprecation (mixed with a healthy amount of confidence of course), a tripled class size, existential crises, and *so much* homework. A special screw you goes out to College Board (and college in general) for the copious amounts of stress that they have created for us. Who needs a life when you have APs to juggle, practicing to do, and SAT prep? Though it was a difficult year, we still made it. We will never admit it, but junior year had some of the best memories of our lives. We grew through the existential crises, the self deprecation, and now we know (unfortunately) what the Gilded Age is. Senior year, here we come!

THE N. C. ESSAY

VOLUME V, NO XIV NORTH CAROLINA SCHOOL OF THE ARTS March 30, 1971

Fest. Success

Copland Attends Fete

Aaron Copland, the famous American composer and conductor, was in attendance at a Festival in celebration of his 70th birthday at the School of the Arts, March 11 - 14. Copland was present for three of the scheduled four evening performances. The programs covered the full range of Copland's music and featured the premieres of three ballets choreographed especially for the occasion.

The Festival opened with a Chamber Music and Opera concert on Thursday, March 11. The program included the Piano Sonata performed by Nicholas Slonimsky, pianist; the Sextet for String quartet, Piano and Clarinet with Rebecca Harrow, pianist; Robert Listokin, clarinetist; and the Claremont String Quartet; and excerpts from "The Tender Land" with the NCSA chorus and soloists under the direction of David Partington.

Friday, March 12, Copland gave an address and conducted the NCSA orchestra in "Outdoor Overture"; "The Lincoln Portrait," with Kurt Yaghjian narrating the excerpts from Lincoln's speeches and writings; and the Suite from his ballet Rodeo.

Five ballets, with music by Copland, were presented by the N C Dance Theatre and dancers from the School on Saturday, March 13 and at a Sunday, March 14 matinee and evening performance. The program included three premieres: "Dance Panels," with new choreography by Nelle Fisher and two ballets choreographed by Duncan Noble: "Nocturne" and "In Games." "Cassandra," choreography by Pauline Koner and "Crazy Quilt," choreography by Richard England, completed the program.

Other events included an informal session with composers from North Carolina and composition majors from the School of Music; a reception in the composer's honor and a showing of the six films for which Copland composed the scores. In addition, radio station WFDD-FM presented Copland festivals on Monday, Tuesday, and Wednesday, March 8, 9 and 10, which featured commentary by Duncan Noble, Robert Ward, and Marc Gottlieb.

Copland, a major figure on the American creative scene for more than forty years, also spent much time talking and listening to students. His friendly, endearing manner made it easy for many students to talk with him about many subjects, but especially about music.

All of the scheduled performances during the Festival were sold out and large crowds appeared every evening.

Just when it seems we're finally getting ourselves together with this newspaper, something always happens to set us back a few cons. This time it was a combination of many things: draft boards, productions, Mr. Copland's visit, vacations, etc. All very necessary (well, I can think of one that isn't) and all very time-consuming. Anyway, because all of these things drove quite crazy (even our printer: "We'll have the material there tomorrow. Wait. No we won't. how about ...and so on), we missed an issue somewhere along the line (I'm not even sure when anymore.) We'll try and make it up, but we're not sure when and how yet. At any rate, we're back (minus some hair) and we'll try and finish out the year un-hassled (but don't bet on it). Most of all, thanks for asking about us and understanding. Incidentally, does anyone out there wanna be an editor any time soon?

Architects Named

Campus Master Plan

The North Carolina School of the Arts has engaged the architectural firms of Hardy Holzman Pfeiffer Associates of New York and Lashmit, Brown and Pollock of Winston-Salem for a threefold development program, according to an announcement made a few weeks ago by Robert Ward, President of the School. Working as a team, the two firms will survey the campus of the School and other facilities in Winston-Salem; develop a master plan for the campus, including recommended new buildings; and design those new buildings.

Hardy Holzman Pfeiffer Associates have specialized in performance facilities and in campus planning. Their firm designed the Tufts University Performing Arts Center, the Playhouse in the Park in Cincinnati, the New Lafayette Theater in Harlem and the Toledo Center for the Performing Arts, which has not yet been constructed.

The local firm, Lashmit, Brown and Pollock, has been involved for years with the facilities of the School of the Arts. It was this firm that in 1929 designed the original Gray High School building, now occupied by the School. They were also architects for the Salem College Fine Arts Center, the Davidson College Fine Arts Center and the acoustical and technical renovation of Reynolds Auditorium in Winston-Salem. The two firms will be associated architects for the School and will work together on all phases of the project.

The three young principals of the New York firm, Hugh Hardy, a former scenic designer; Malcolm Holzman and Norman Pfeiffer, who have made theater design a major thrust of their work, believe that the School will take a new direction in the future as a result of campus planning.

"The School has been influenced by its buildings," said Norman Pfeiffer in discussing the new contract. "It has been necessary in the past to organize the School physically by departments. Eventually, the School can be organized by activities." He has suggested that perhaps the daily and routine of classes, rehearsals and study can take place in the existing buildings and that a new area could be developed for performing.

Pfeiffer said of the present performance areas, the Main Auditorium and the Drama Theatre, that these large spaces are well suited to many of the School's activity needs such as an experimental theater and facilities for film and television. A major part of the master plan will be determining the best use of the present buildings.

Commenting on the sense of isolation often inherent in the pursuit of an artistic career, Pfeiffer said that new spatial arrangements would make students more aware of each other by providing the best environment for interaction. "Architects can't make this interaction happen," he concluded, "but they can set the basic environment for it."

The highest priority in campus development is a new library. Funds for this project have already been requested from the legislature and the proposed building has already been designed by Colvin Hannnill and Walter of Winston-Salem. This building would also include a small recital hall.

The two firms working on the master plan expect to complete the initial survey and submit recommendations by the end of April. The state has provided funds for planning related to new buildings and further support for the development of a master plan has come from the School of the Arts Foundation.

Matthews In Recital

Clifton Matthews, pianist, will present a recital in the Main Auditorium of the North Carolina School of the Arts on April 2 at 8:15. The program will include Prelude and Fugue in D major and Prelude and Fugue in D minor from The Well Tempered Clavier, Volume II by Bach; Six Etudes, Book 1 by Debussy; Piano Variations by Aaron Copland and Grand Sonata in F sharp minor, Opus 11 by Schumann.

Bach's 48 Preludes and Fugues entitled "Das wohltemperirte Clavier," was published in two parts, each containing twenty-four preludes and twenty-four fugues. The first part was completed in 1722 when Bach was in his 36th year, and to this alone he gave the above name. Subsequently (1744) he finished 24 more preludes and fugues through all the major and minor keys", and so like in design to the former series are these that they have come to be regarded as the second part, the entire collection now being under one title.

Dubussy's Six Etudes, one of his last works, was composed in 1915 and dedicated to the memory and genius of Chopin.

The Piano Variations, performed with Pauline Koner's ballet "Cassandra" at the School's recent Copland Festival, consist of a ten-measure theme, twenty variations and a coda. The work conveys a feeling of strength, hardness and concentration. Like many other twentieth-century composers, Copland treats the piano percussively. Most of the variations are played loud and non legato, with many sharp accents. The Piano Variations was composed in 1930.

Among the attempts to add something genuine to the literature of the pianoforte sonata the Grand Sonata in F sharp minor, Opus 11 by Schumann is the most interesting.

Matthews, who came to the School in 1968, received his B.S. and M.S. degrees from the Juilliard School of Music, where he was a student of Irwin Freundlich, who is also a member of the faculty at the School of the Arts.

At Salem

"BeeBee" Presented

"The Days and Nights of BeeBee Fenstermaker," a play by William Snyder about a Southern girl who journeys to New York to begin a writing career, was presented as a workshop under the direction of Robert Murray, by the School of Drama Monday, March 15, through Thursday, March 18. Through the courtesy of Salem College, the production was held at the Fine Arts Center in the Drama Workshop Theatre.

The action of the play covers a span of several years and takes BeeBee Fenstermaker from idealistic enthusiasm through disillusionment to resignation. When her money runs out after her first three months in New York, BeeBee is forced to take a secretarial job and then finds it increasingly difficult to work on the novel she hoped to write. She tries other artistic outlets but little by little becomes just a secretary, looking for someone she can bear, someone who can bear her for at least a little while.

BeeBee's life in New York is set against a background of scenes involving her mother and her two aunts back home. These three sisters are in many ways like a chorus and their scenes are intended to give background and perspective to BeeBee's struggles in New York.

Mary Beth Zablotny played the title role with Elaine Rinehart as her best friend. Richard Kaplan and David Marshall were the two men in her life and Monte McIntyre was the interviewer who helps her find a job. The three sisters back home were played by Elaine Rinehart, Enid Eisenstein and Jovee Solkov.

Robert Murray, who directed the earlier NCSA production of "The Sign in Sidney Brustein's Window," has just been named Chairman of the Acting Program in the School of Drama.

Cafeteria Changes

The following directive appeared in our mailboxes recently. Perhaps you'd best read it.

"Because of the large amount of food eaten by students, staff and non-students who do not pay for it, the Cafeteria may lose as much as $9,000.00 in its operation during the 1970-71 school year. Such a loss would necessitate a raise in the cost of board during the 1971-72 school year. After consultation with Mr. Childress, head of the food service, and with the Student Government, the following policy has been agreed upon in order to eliminate these losses.

(1) The rate per meal for off-campus students will be as follows: Breakfast, $.50; Lunch, $.85; and Dinner, $1.10.

(2) No student eating in the Cafeteria will be allowed to feed another student, visitor, faculty or staff member.

(3) Students, faculty, and staff will be allowed to meet in the Cafeteria without purchasing a meal ticket, providing they identify themselves to the person on duty at the cash register and let that person know that they are in the Cafeteria for the purposes of meeting.

(4) A. Visitors on campus will be asked to pay the same rates as are now charged per meal. The rates are as follows: Breakfast, $.75; Lunch, $1.25; and Dinner, $1.50.

B. Each visitor in the Cafeteria must have a visitors pass which may be obtained from any Houseparent.

(5) Any person who eats food in the Cafeteria without paying will be barred from the Cafeteria for the period of one (1) month for the first offense and for one (1) semester for the second offense.

(6) This policy will go into effect with the breakfast meal on Thursday, April 1, 1971."

The directive was issued by Martin Sokoloff, Administrative Director and Robert Hyatt, Dean of Students.

NOTICES

We received the minutes of the All-School Advisory Council rather late for this issue (and also they are extremely long). However as several important topics were discussed at the last meeting, we feel it is important that students be aware of what happened. Therefore, there will be a complete copy of the minutes available in the Essay office for anyone who cares to read them.

Mme Danilova's Last Tour

Robert Lindgren

Alexandra Danilova, by all standards, had a fabulous dance career. She was trained at the Russian Imperial School of Ballet in St. Petersburg and graduated into the legendary Marinsky Theater. During a summer tour in Germany in 1924, with a group of dancers that included George Balanchine, Tamara Geva, and Nicholas Efimov, she defected to the West.

She went on to an illustrious career as ballerina with Diaghliev's Ballets Russes, Col. de Basil's Ballets Russes de Monte Carlo, and as prima ballerina with the Sergei Denham Ballet Russe. Along the way, she danced in revues in London, appeared on Broadway in *The Song of Norway* and *Oh Captain!* and with the Slavenska-Franklin Dance Company.

In 1955, at an age when most ballerinas are retired, she formed her own concert group, Great Moments of Ballet with Alexandra Danilova, which consisted of her partner Michael Maule and the husband and wife team of Roman Jasinsky and Moussia Larkina. They toured America and east Asia. At the end of the season, Jasinsky and Larkina left to open their school in Tulsa, Oklahoma, Miss Larkin's hometown, and together they formed Tulsa Ballet Theater.

My wife, Sonja Tyven (Taanila) and I had toured with Mme Danilova for many years in the Ballet Russe and were friends of long standing. We were working in New York performing in the NBC television specials produced by Max Liebman. We were also studying

We had been out of ballet for several years and were eager to return, given the right opportunity. Her concert program consisted of a short version of *Les Sylphides* (with two poets), the *Nutcracker* and Black Swan pas de deux, a three-dancer version of Massine's *Le Beau Danube*, a pas de deux from Balanchine's *Cotillon*, *Mlle. Fifi*, a ballet by Zachary Solov commissioned by Danilova, and *Carib Pedlar*, a ballet choreographed by Maule.

Choura told us she had spoken with Balanchine about the possibility of doing a two-couple version of *Mozartiana*, a work she, Frederic Franklin, Sonja, and I had all danced when he staged it for Ballet Russe de Monte Carlo in 1945. She also planned to have Job Sanders, a soloist with American Ballet Theatre and formerly of the Ballet Russe, choreograph a new work for the four of us.

She suggested that I should ask James Starbuck to stage a work for Sonja and me on an American theme. Jimmy agreed and came up with a wonderful work, *Manhattan Moods*, about an American sailor and his girlfriend on a night out set to Richard Rodgers' "Make Mine Manhattan." The music had a two-piano arrangement by Alan Moran, Starbuck's accompanist on the television program *Your Show of Shows*.

Mme Dinvited us to spend a weekend at her home in Lakewood, New Jersey, to discuss plans for the repertory and a rehearsal schedule, with time to be social. She was a wonderful hostess who wined and dined us with Russian delicacies and the next morning served us breakfast in bed. She and her companion, Elizabeth Twysden, certainly made it a memorable visit. Choura had a sharp and sometimes wicked sense of humor, and although we did manage to get some work done, we seemed to be laughing constantly.

Courage is a prerequisite for personal success, and you've got this! You have always walked through the fear to find your way, and we couldn't be more proud. A wise, five year old songwriter once penned, "Time's a tickin' Dime's a flickin," and oh, how true that has been. Our years with you have passed too quickly, but we count ourselves blessed to be your parents. Thank you for an amazing journey. We wouldn't trade a second.
